FREMANTLE MARKETS' MORISH NUTS CELEBRATES 25 YEARS

Fremantle Markets' success story Morish Nuts continues to inspire other budding WA retailers to chase their dreams and pursue career opportunities as the operator celebrates 25 successful years at Fremantle Markets.

Recently congratulated for their business' success within Fremantle Markets by City Ward Councillor Rachel Pemberton, Morish Nuts' founders Archie and Marie first came across their business idea when roasting nuts over campfires and later selling their delicious product to local farmers in order to help support Archie through university.

"I remember when Morish Nuts first opened and we would buy nuts as gifts to take to family overseas and interstate. They were a delicious and much appreciated gift that showcased the unique creative talent in Fremantle. It's great to see another nationally successful brand from Fremantle going strong!" said Councillor Pemberton

Much loved by their product as well as their larger than life personalities, Archie and Marie have since become a staple at Fremantle Markets with locals and tourists alike returning to enjoy their favourite nut stall – time and time again.

With a wide range of flavours on offer Morish Nuts has something for everyone. Whether you're a sweet tooth that can't resist the delectable caramel coating or after something a little different such as the wasabi, abalone, truffle or chili and lime flavours – you're bound to find something to enjoy.

Made from premium ingredients and lovingly made by Archie and Marie the name Morish stems from the business' origins as part of the family- owned recipe first developed by artisan Moors in the Byzantine era - now passed down through the generations.

Whether its food, entertainment or shopping, there is something for everyone at the portside Fremantle Markets – More Than Just a Market!
