RICHARD SMYTH - WILD EARTH IMAGES

SPECIALISING in landscape pictures of WA and beyond, Perth-based photographer Richard Smyth has run Wild Earth Images at the historic Fremantle Markets for more than 15 years.

This precious gem of a gallery displays breath-taking scenes on huge limited edition canvasses and framed photographic pictures attracting both tourists and locals to experience the whole of WA in one special place.

"We've been selling our pictures worldwide to people who visit our gallery for years and we now have a brand new website to cater for the growing demand of online shopping," Richard said. "People want to bring the ocean or the Outback into their home or office environment and with a demand for bigger pictures, we can provide photographic canvasses over 2m long."

In his quest to immortalise the natural landscape, Richard perfected his photographic skills by

researching, travelling and camping throughout Australia's Outback.

His work was selected to give to the delegates of CHOGM, including Queen Elizabeth II and the Prime Minister, in 2011, and even the Pope has one of his pictures according to a letter from the Vatican.

Richard Smyth - Wild Earth Images is at Shop 15, Henderson Street Mall, Fremantle (off the cappuccino strip). Call 0419 905 906 or visit www.richard-smyth.com.au.
